Brief Report:	<p>Department of Commerce and Management of St. Xavier's College, Jaipur organized the National Symposium on Strategies for Reshaping Business and Economy: Sustainable Development Perspective on 18 December 2019. The symposium served as a platform for students, teachers, and experts from the industry to discuss strategies for reshaping business and the economy from a sustainable development perspective. The event wasn't just limited to expert knowledge-sharing but also incorporated the valuable contributions of budding researchers through student research presentations. These presentations covered a diverse range of topics, including Innovative business practices implemented by local startups or small businesses, Case studies analysing the impact of corporate social responsibility initiatives on communities and the environment, and Research on sustainable supply chain management solutions for specific industries within the region.</p> <p>These student presentations not only showcased the future generation's commitment to sustainability but also sparked dialogue and debate among established professionals. The symposium fostered a unique exchange of ideas, where established experts provided valuable feedback and guidance to the students, while their fresh perspectives enriched the overall discourse.</p> <p>Beyond the presentations, the symposium offered participants the opportunity to engage in lively discussions, share best practices, and network with others who are passionate about making a difference. It served as a valuable platform for learning about the latest trends in sustainable development, fostering collaboration, and inspiring action towards a more sustainable future.</p>
Feedback Report:	<p>The symposium was a highly successful event that contributed significantly to promoting sustainable business practices and fostering collaboration between academia, industry, and future leaders. Positive Aspects of the symposium included effective connectivity of various stakeholders within the sustainability discourse, Student participation showcased their commitment and talent, contributing fresh perspectives, and the event addressed critical topics for regional businesses, and provided valuable insights. Suggestions for Improvement: Explore potential follow-up initiatives to translate symposium discussions into concrete action.</p>

ABOUT THE COLLEGE

The Jaipur Xavier Educational Association (JXEA) was established in 1950, as a trust managed by the Jesuits. In 2006 the foundation of Xavier Vocational Institute (XVI) was laid in Jaipur to provide vocational training to the economically challenged sections of society. In 2010 the JXEA, in collaboration with the Xavier Alumni Association initiated the Higher Education Program and established the St. Xavier's College, Jaipur, affiliated to the University of Rajasthan. The college is maintained by the members of the Delhi province of the Society of Jesus. St. Xavier's, Jaipur has been making rapid strides in its pursuit of excellence, at par with other Jesuit institutions of higher learning, since its inception. The skills and knowledge that is needed in the 21st century in the global context are being imparted with a broad-based academic curriculum.

ABOUT THE SYMPOSIUM

The concept of National Symposium 2019 is Strategies for Reshaping Business and Economy: Sustainable Development Perspective. ABOUT JAIPUR

Jaipur, popularly known as the Pink City and the Paris of India, is the capital of the state of Rajasthan in India. Founded in AD 1727 by Sawai Jai Singh II, steeped in history and culture, Jaipur is famous for its unique Architecture, Astro, Astrology, Forts, Monuments, Palaces, Art and Craft, Culture and Food. Here tradition, antiquity and the old charm of the by gone era mingle seamlessly with modernity and technology. The bustling bazaars of Jaipur with Rajasthan jewellery, fabric and shoes, possess a timeless quality and are surely a treasure-trove for all kinds of shoppers. This fascinating city with its romantic charm of history and a touch of modernity is sure to mesmerise you.

ABOUT THE INSTITUTION

Established in 2010, by J.X.E.A. (Jaipur Xavier Educational Association) St. Xavier's College, Jaipur, has been pursuing the legacy of St. Francis Xavier of promoting human fulfillment by means of training and education in India. Following the motto of the founder of the Society of Jesus, St. Ignatius, the college has been working for "the greater glory of God" (Ad maiorem dei gloriam)

The college has grown manifold ever since its establishment, serving the educational needs not only of the people of Jaipur but also of students across the nation and beyond. Planned as a small sapling in 2010 with five streams - English and Economics Honours, Management, Commerce and Computer Science, the College has now acquired Post graduate and graduate courses which were introduced owing to the popular demand by parents, guardians, students and well-wishers. The latter include Masters in English, HRM, Commerce, Economics and IT and also Honours in Political Science. Within a short span of nine years the college has grown into a sturdy oak with more than 2000 students and has carved an enviable niche for itself in the academic world. As a premier institution of higher education, the college is known for its dedication towards innovating and inventing ways to discover untolden pastures of learning and knowledge for contributing to the betterment of the society.

ABOUT THE CONFERENCE

St. Xavier's College believes in building Character that is Competent and Compassionate. In pursuance of such belief, the college is organising a Multi-disciplinary International Conference on Rethink, Restrict, Restructure and Reinvent: The Sustainable Development Perspective. In the journey of growth and development, humanity has put many things at stake, the most important being our environment, our natural resources, our planet, and our future.

Life on the planet is affronted by grave risks posed by climate change induced by our race, and by extension - as Climate change, and its adverse consequences, have become a global concern. The conventional understanding of terms like 'growth' and 'development' requisite proper interpretation. Sustainable development is not only the global need, but also our only hope for redemption. It is not only our liability, but also our responsibility to think about 'habitability' of this planet that we call 'home', by using the resources strategically, and judiciously. It is imperative, therefore, to review and possibly Rethink, Restrict, Restructure, and Reinvent the means and measures, to deal with this crisis and its ramifications.

This multidisciplinary forum is for scholars, teachers, and practitioners from any professional discipline who share an interest in—and concern for—sustainability in a holistic perspective, where environmental, economic, human and socio-cultural concerns intersect. The conference aims to provide a platform to experts of different subjects to converge under the gamut of a central theme through various technical sessions.
