Flipped Classrooms & Peer Teaching

The flipped classroom model at St. Xavier's college promotes active learning, critical thinking, and meaningful teacher-student interactions, making it a valuable approach in modern education. In Flipped Classroom we encourage students to take ownership of their learning. They are responsible for reviewing materials independently and actively participating in class discussions and activities, promoting a sense of accountability. Peer teaching method used in classrooms for students to take on the role of instructors to help their peers learn and understand concepts. Students work together in collaboration to solve problems, clarify concepts, and support each other's learning.
