Maintenance Plan Water Harvesting Tank

The college conducts routine maintenance procedures to optimize the functionality of the system.

The following procedure is adopted for maintenance:

1. Maintenance of the tank is done before commencing of the rainy season in the state.
2. This includes cleaning of inlet & outlets, surrounding the filter chamber clean and hygienic.
3. After opening Iron Jal, leaves and other unwanted materials should be removed.
4. Water is not allowed to stagnate in the chambers.
