Criterion 7/ Session on Organic Farming as Par of Swachhta Week for Villagers/ 27th September- 1st October 2022

Report: Organic Farming Session as part of SWACHHTA WEEK

Date: 27th September- 1st October 2022

Swachhta week was a 5 day long initiative by The **Swachhta Action Plan Committee** to make necessary environmental changes and spread awareness among students and people about our planet and how to preserve it. It was held from **27th September- 1st October 2022**.

The first day i.e. the 27th, began with the **orientation**, the event consisted of briefing of the committee and how it works. The team organized a very smooth and planned event. The whole week's plan was discussed and explained to the team. Another event that took place the same day under the "**Waste and Energy Management Unit**" was a **poster making and slogan writing competition**, and the theme for the same was. Students participated with full enthusiasm and showcased their artistic and creative sides.

The second day i.e. the 28th consisted of 2 events; the first one was a street play on the theme "**water management**". The theatre society conveyed the message very strongly through a "**nukkad natak**". It was a delight to witness such a talent. The message was crystal clear and surely made an impact. The next event was a Water Management Awareness Drive called, "**Swachh Ho Jal Swasth Ho Kal**".

The third day consisted of a "**Cleanliness survey**" on sanitation and hygiene. Our volunteers went from door to door to conduct the survey and collected meaningful data. It was an informational field trip that helped us make a database which will definitely help us in carrying out future activities.

The fourth day held a Session on **Organic Farming**, an Integrative Approach in farming for doubling farmer's income, conducted by the greenery unit.

The 5th and the last day of the swachhta week consisted of Prize distribution and **Gandhi Jayanti Celebration** conducted by the SAP committee. The Reverend Fathers and the audience payed their respects to Mahatma Gandhi and Lal Bahadur Shastri Ji. Xavier's Music Society and Xavier's Dance Society gave their mesmerizing performances, the emcees for the event hosted the program with utter professionalism and enthusiasm. Our teacher and student coordinators were the soul of the event and did an amazing job in making the last and final day of the event a beautiful reality.

Notice

The Department of Computer Science and Tech-X (IT CLUB) is organizing an extension activity for sensitizing students and faculties to social issues on "Food Security in Covid'19" in collaboration with Faculty Enrichment and Exchange Programme Cell (FEEPC) on 25th November 2020.

Objective of the Program

"Organic farming involves using only natural methods without any harmful chemicals, toxic ingredients or synthetic element to fertilize, feed, or increase growth. It relies on natural techniques such as crop rotation, organic compost, green manure, biological and natural pest control methods"

The objective of the program is to train the students to preserve nature and natural resources from a very early stage, they are more likely to become active in reducing the negative impacts on the globe. It is necessary for the students and society to learn about ecological environment and the value of organic farming, so that they can start producing more food at their own, lessen dwindling of earth's resources, and stop world hunger. It is not enough just to teach students about nature in schools without giving them the practical knowledge and showing them how they can act towards reducing negative impacts on the environment. Therefore, with practical experience of greenery, The Living Greens Organics shall stream LIVE VIDEO from their ROOFTOP ORGANIC FARM so that the students will get a real-life view of how organic farming can be done on rooftops.

Details:

- Resource person: Mr. Prateek Tiwari, Founder &CEO, The Living Greens Organics, Jaipur

Report: National Webinar on Covid '19 - Creative Strategies: Organic Farming at Home/ online Session/ Department of computer science & FEEPC/ 25th Nov. 2020.

Department of Computer Science and Tech-X IT club in collaboration with FEEPC of St. Xavier's College, Jaipur organized a National Webinar on **Covid '19 - Creative Strategies: Organic Farming at Home** on 25 November 2020. In this webinar, **more than 150 participants** registered from the St Xavier's College as well as the students from different institutions of the state. The webinar was graced by the presence of **Mr. Prateek Tiwari**, as the resource Person. He is the **Founder and CEO of The Living Green Organics, Jaipur and the Global Coordinator of YARD** (Young Ambassadors for Rural Development). He has earned numerous laurels and achievements in the field of organic farming.

This webinar has been organized with the objective of raising awareness and adding the freshness of nature in the daily lifestyle of students and sensitizing them for their responsibilities towards nature, and making bonds with the plants and their liveliness for their own well-being.

The program began with the welcome address of the student coordinator Jovina Jacinta Castelino at 9:00 am. Rev Dr A Rex Angelo, Principal of the college addressed the participants and welcomed the resource person. Father told about the importance of organic farming and the role of a healthy diet in one's life. The resource person Mr. Prateek introduced the concept of **organic farming** and its importance in today's pandemic situation. He made the participants aware of the health benefits of organic food and told about various creative strategies related to organic farming. He explained the different ways of managing and converting unused urban spaces into organic food-producing spaces. He demonstrated innovative products and methods which can be easily adapted to fulfill the passion of doing organic farming on the rooftops. He further explained how organic farming can be done with the least investment. He shared the real-life view of his own organic farms with the participants. After having a wonderful virtual tour of the organic farms and an insightful discussion, a question and answer session took place where students clarified their queries, got more ideas and information pertaining to this area, and had a better understanding of organic farming with a way towards an innovative business model. The session was very useful and informative for the participants.
