Hands on Experience

Internship Programs 24 July to 21 August 2019

From 24 July to 21 August 2019, I started my internship at SMS Psychiatric Centre, Jaipur. It was more or less, an observational training, where all the interns used to sit with the professionals and observe the entire work. But I was lucky enough that I received an opportunity to handle a patient by myself—this was a very different experience because despite listening to their problems and how difficult it was for them to live, our field of study always told us not to get attached or have any kind of personal emotions with them. We used to assemble in the seminar halls, two days a week accompanied by several experienced and learning doctors, and used to discuss a patient, his history, followed by symptoms and then the problems and its treatment. This part of the internship for me, personally was a very difficult task because we had to speak regarding the above and it was rather a theoretical exam than a real-life assessment. Overall, it was a wonderful experience and I am thankful that I had such a chance.

Suchitra Sharma
BA Eng. Hons. III
