

Bottle Brush

Callistemon citrinus

Order:
Myrtales

Family:
Myrtaceae

Genus:
Callistemon

Species: *Callistemon
citrinus*

DESCRIPTION

- It is a large evergreen upright tropical shrub that will grow to 10-15' tall in its native habitat. It is native to temperate regions of Australia.
- Because of their cylindrical, brush like flowers resembling a traditional bottle brush and known as Bottle brush.
- Bottle brushes are used as an ornamental plant.
