### 1. Post pandemic challenges and opportunities for students

The economic impact of the coronavirus pandemic has been greatly disruptive. Amid this scenario, several countries across the world have resorted to lockdowns to” flatten the curve” of the infection. Owing to this, the global economy has been pushed into a recession. This in-turn disheartened many young souls, who had lost the direction and vision of the future. To enlighten young minds and make them conscious of the alternatives that lay ahead, the 'Training, internship and placement cell' organized an illuminating and interactive session on 'post-pandemic challenges and opportunities for students on the morning of 19th November'20.

The guest speaker of the session was Mr Vaibhav Mediratta, an eloquent speaker, working as Management Consultant and Corporate trainer, Impact Training and Consulting. He has worked with the likes of Union Bank of India, ICICI Prudential, Reliance life insurance and many more, specializing in training and business consulting. He captivated the attendees with his oratorical prowess, as he talked about being a distinguished student and its importance in the real world. Furthermore, he emphasized on topics such as skill expertise, experience and forming a social network, which is the need of the hour. He reflected on the importance of soft skills, languages, and certification courses.

In the end, Mr. Vaibhav Mediratta concluded by Speaking a few words of motivation and underscoring, yet again, the importance of varied skill set. The event graciously dropped its curtains after a wholesome question-answer session. This session was organized by the Training, Internship and Placement cell and attended by larger number of participants.

#### 5. St. Xavier's College as Active Local Chapter and in Top 100 Colleges:

The college also attained the status of **Active local chapter** and gained its place in **Top 100 colleges** in terms of performance for the session JUL- DEC 2020 for the excellent performance of the students and faculties. Suggestions regarding SWAYAM course run:

1. Every Department should run at least one course or two courses (BBA & B.Com) per semester to ensure the viability of these courses.
2. The mentors appointed should also appear for the Examination as it will boost the morale of the students and further motivate them to not only enroll for the course but also validate their learning by appearing in the exam and gaining a certificate for themselves. For this faculties can take up FDP courses to increase the count for the college to gain the good ratings.

#### 5. Posters and Pictures Supporting the Activities/ Work performed (max four photos as thumbnail) – can be avoided by those units where there is no photographic evidence of work performed

## Covid help desk at Xavier's

**SUBHANKAR CHOWDHURY**

Calcutta: The St Xavier's College Alumni Association, in collaboration with the college, has opened a Covid help desk on the campus to help families who have tested positive, especially those from economically weaker sections.

The volunteers managing the help desk will arrange oxygen concentrators, oxygen cylinders, pulse oximeters, PPE kits, hand sanitizers and other essential commodities and provide the items to those unable to procure them.

The help desk number that became operational on Wednesday is 7429663182.

Father Dominic Savio, the principal of the college and the president of the alumni association, said, "We cannot remain quiet in this difficult situation and will have to engage ourselves in extending these services, as the main principle of our (Jesuit) education system is to act as men and women for others and this is the time to prove it."

A member of the help desk "SXCCAAbhelp" said the initiative will include helping people get hospital beds, safe homes, ambulances, Covid tests, oxygen, delivery of medicines, blood and plasma donations.

Sanjib Koner, the honorary secretary of the alumni association, said they received

42 calls from people seeking help on Wednesday.

"We had internally circulated the number among our members and others who have engaged in humanitarian drives previously. So many calls in a day shows how serious the situation is," Koner said.

He said the family members of the patients are going to the Park Street campus to receive the aid. "If the situation demands delivery at their doorsteps, our volunteers will do that," he said. For now, deliveries will be restricted to the vicinity of the college.

An appeal from Father Savio is being sent to all alumni in India and abroad. A coordinated and comprehensive initiative called SXCCAAbhelp Lifetime Lifetime project is being planned.

"We need a lot of resources so that we can help as many as possible. Since economic activities have been restricted as a precaution against Covid, the financial distress is increasing among families. The poor are not in a position to bear the medical expenses," Father Savio said.

He said they were also working on a plan to turn the college's Raghupur campus into an isolation centre for the college students and their families who test positive for Covid.

"We have plans to open the isolation centre to outsiders as well, later," Father Savio said.

The effect that the Covid-19 pandemic has had on the world is devastating. While the virus caused physical harm to millions, the havoc it wreaked on people's mental health has been the cause of major concern, especially after the second wave. A COVID counselling session on medical and mental health was held by XCA where renowned Pulmonologist Dr. Nalin Joshi gave a talk. The session was held under the gracious guidance of Rev Fr Dr A Rex Angelo. The disruption caused by the pandemic, like the enormity of living in isolation, changes in daily life, job loss, financial hardship and grief over the death of loved ones had the capacity to affect the mental health and well-being of many. The session offered basic psychosocial support to the people who were diagnosed with Covid-19 through counselling sessions. The session in the form of psychological first aid, helped the students, staff and their family deal with the mental health concerns of the pandemic along with providing transparent, genuine and timely information to them.

### **8. Free Online Yoga and Meditation Facility:**

During the ongoing Coronavirus pandemic, when we were all bound to live a restricted life under the constant fear of infection risks, it was natural for anyone to develop anxiety. The continuous flow of negative news, the inadequacy of daily resources, everything was adding to this growing anxiety and depression. Being confined at home for such long periods of time could be mentally challenging for us. Stress is the element that triggers our sympathetic nervous system causing all these health issues and in such situations, yoga can help us to stay calm. The posture and asanas of yoga help us to reduce muscle tension, joint issues and relax our sympathetic system, resulting in a relaxed mind. The Yoga Club of St Xavier's College, Jaipur in association with Xavier's College Alumni conducted the free yoga and meditation classes through the Virtual Platform for both the staff as well as for the students. Both Morning and Evening Yoga sessions were held from 24 May 2021 to 8 June 2021 which helped us to build a strong physical, mental and spiritual health system.

### **9. Free Covid Test and Medicines Campaign in Nevta village:**

A holistic approach towards well-being ensures that the physical, medical, emotional and mental needs are met. They worked to the best of their abilities and strive to do more for the upliftment of the downtrodden. The local villagers were tested in increasing numbers everyday. They were provided with free COVID self testing kits under COVID Testing Drive. The villagers were thereafter given a line of treatment and healthcare services by professional doctors and efficient nurses.

## **10. Food and Grocery Distribution in Nevta Village:**
