

Hadjod

Cissus quadrangularis

Order:
Vitales

Family:
Vitaceae

Genus:
Cissus

Species:
quadrangularis

MORPHOLOGY

- Quadrangular-sectioned branches.
- Toothed trilobe leaves
- Evergreen climber

USES

- Healing of broken bones
- Injured ligaments
- Tendons

CHEMICAL COMPOSITION

- β -sitosterol
- Ketosterones (including 3-ketosteroid 17-ketosteroid)
- Quercetin

MEDICINAL PROPERTIES

- Anti-inflammatory
- Analgesic activities

ACTIVE PHYTOCHEMICALS

- α and β -amyrins
- β -sitosterol,
- Ketosterosterol
- Phenolics
