

Common Name: Petro Kroton

Codiaeum Variegatum

Order: Malpighiales

Family:
Euphorbiaceae

Genus: Codiaeum

Species:
Variegatum

DESCRIPTION

- The croton plant indoors adds liveliness with its beautiful dark red or yellow foliage.
- Native to tropical islands in the Pacific Ocean, crotons enjoy warm and humid climates.
- Crotons grow well at room temperature (15 to 24°C)
- It has air-purification qualities and effectively removes chemicals such as formaldehyde from the atmosphere.
