Spathacea

## DESCRIPTION

- Rhoeo is a tough and adaptable plant
- It is native to Belize, Guatemala, and southern Mexico, but is widely cultivated as a decorative and naturalized in parts of Florida, Texas, Hawaii, and various oceanic islands.
- Rhoeo is commonly called boat lily, Moses-in-a-cradle plant, or oyster plant
- . It has fleshy rhizomes and rosettes of waxy lance-shaped leaves, which are dark metallic green above and reddish-purple underneath.
- Rhoeo makes an excellent and fast-growing groundcover in the garden
