About Certification

Red Hat Enterprise Linux is an open source, protected, smooth and easy-to-use operating system designed to secure, customize and provide flexible and stable foundation for all IT work pressure and deployment. Red Hat launched its certification RHCSA and RHCE which is an entry-level certification; it is the first step that leads you towards the world of Red Hat Enterprise Linux and Open Source Technology environment.

An RHCE certification is earned by a Red Hat Certified System Administrator (RHCSA) who has demonstrated the knowledge, skill, and ability required of a senior system administrator responsible for Red Hat Enterprise Linux systems. The exam is for 3.5 hours and in order to get RHCE (Ex300) certified, candidate must clear RHCSA (Ex200) certification, hands-on-lab exam duration of which is 2.5 hours.
