Call for Papers – Springer Nature

We are delighted to announce that Springer Nature has graciously accepted our request to publish research papers authored by our faculty members. This is a proud moment for our institution and a testament to the quality of academic work being carried out by our team.

I encourage each faculty member to take advantage of this opportunity by contributing at least one book chapter. As part of this collaboration, Springer Nature has agreed to publish the best 20 papers submitted by our faculty.

Let us work together to showcase our research excellence on a global platform which would be significant for the Performance Based Appraisal System (PBAS). Please feel free to reach out for support or guidance during the submission process.
